

## Profile

*Being an Engineer, its difficult for me to just accept something without going into abstraction. Carrying a hardcore learning attitude, I intend to extend my skills for the edification of the respected organisations which put their faith in my capabilities by constantly upgrading myself as well.*

*I am open to all the jobs which offer novelty and adventures. On the top of all, I want to face challenges everywhere I go because I believe every day is a kind of test which needs to be qualified to survive.*

**2014-2019 Master of Technology**

**DAVIET / PTU**  
70%
