

Covering Letter

Respected Ma'am/Sir

I am Madhusudan Singh, completed my Bachelor of Education from Central University of Haryana. I also had teaching experience of two years (2018 to 2020) in Kavika Educations LLP, Durgakund, Varanasi, Uttar Pradesh as Wing Coordinator, Student Counselor, Faculty of Commerce and Management and had a 3 month teaching experience in Government Senior Secondary School Pali as an intern and now i have completed my Bed so i want to reach the heights of my career and want to gain more experience and knowledge.

I am a teacher by heart. Sharing my knowledge and understanding with others has always been a source of joy for me, greatest satisfaction comes from watching people learn and grow. I particularly believe that

- Teaching is not imparting knowledge to students, but rather is a collaborative learning effort between a teacher and students.
- The foremost purpose of teaching is to empower students and equip them with skills.
- Teaching is best done by relating new concepts to what students and equips them with skills.
- Teaching methods ought to be adapted to the needs of the situation.

I have some ideas that i have learned about teaching, but it is challenging to always execute them well, let alone to perfection . Nevertheless, I have a strong desire to keep learning from mistakes , be open to feedback ,and become a better teacher. I particularly look forward to advise from senior teachers, professionals and students, After all , the learning aspects of teachers are fascinating.

Regards

MADHUSUDAN SINGH
