CAREER OBJECTIVE

Motivated M.Tech (CSE) student seeking an entry-level software role to apply strong foundations in programming, data structures, and algorithms. Interested in building efficient, scalable backend and full-stack solutions through hands-on project experience and consistent problem-solving practice.

ACADEMIC DETAILS

- Master of Technology in Computer Science and Engineering from Graphic Era Deemed to be University (Expected 2026).
- Bachelor of Technology in Computer Science and Engineering from Graphic Era Hill University 2024.
- Diploma in Mechanical Engineering from the Guru Ram Das Polytechnic, Dehradun 2021.
- Intermediate from Baluni Public School, Dehradun in 2018.
- High School from Kendriya Vidyalaya New Tehri, in 2016.

PROJECTS

- **Customer Support Ticketing System (React, Node.js, MySQL, REST API)**
Developed a full-stack web application to manage customer issues efficiently. Implemented ticket creation, status tracking, and admin resolution workflows using RESTful APIs. Integrated authentication, SQL-based data storage, and a responsive React-based interface for real-time updates. The system simulates enterprise-level support flow with SLA-based resolution tracking.
- **Student Record Manager (Java, Spring Boot, React.js, MySQL)**
Developed a simple RESTful API for managing student records, including endpoints to add, update, view, and delete student details. Implemented input validation, JSON-based request/response handling, and MySQL integration for data persistence. Demonstrated skills in backend development, API testing with Postman, and understanding of CRUD operations using Spring Boot.
- **RESTful Product Feedback API (Spring Boot, Java, MySQL, Postman)**
Designed and deployed a REST API for managing customer product feedback. Implemented endpoints for submitting, updating, and retrieving feedback with status codes and validation. Demonstrated proficiency in API development, backend debugging, and JSON-based communication, reflecting real-world enterprise support case management.

TECHNICAL SKILLS

- Programming Languages: Proficient in C, C++
- Database Management: Familiar with MySQL and basic database schema.

PROBLEM SOLVING

- Solved 200+ DSA problems on LeetCode
- Strong in Arrays, String, Linked List, Stack and Trees
