SUMMARY

I am preparing for banking exams for the past one year and have been successful in clearing many prelims with good marks. I have an in-depth knowledge of changing question patterns and have a repository of the best, new pattern questions of Quant and Reasoning. Since, I have appeared for interview in IBPS PO, I can ably guide candidates to groom themselves for the interview post with quality content in the field of Banking awareness and terminologies relevant to the interview perspective. Being an aspiring banker, I can offer a 360 degree preparation guide by providing insights and notes on Current Affairs, Banking and Economy affairs as well, which carry a significant weightage in the Mains exam and Interview. I have experience of tutoring candidates prior to applying for this role. They were taught from scratch and have now started clearing Prelims exam after 5 months. Thus, I can be a useful faculty for the role of Banking Tutor and each all the subjects of Banking at two levels – **Prelims and Mains** in a structured and scientific manner.
