EXPERIENCE

04/2023 - 09/2023

Helios Tech Labs
Software Engineer, Mohali
- I have gained valuable professional experience as a Tester during my tenure at Helios. My primary responsibilities included writing test cases , performing different testing techniques to ensures quality.
- Throughout my journey, I had the opportunity to work with various technologies such as Python, CSS, and SQL. In addition to my technical expertise, I have also developed proficiency in Leadership Business Skills, particularly in the art of articulation. This skill allows me to effectively communicate complex ideas and concepts in a clear and concise manner.
- Furthermore, I understand the importance of collaboration, adaptability, and iterative development in projects, and I am able to contribute to a team's success.

01/2020 - 03/2020

DRDO
Research Intern, New Delhi
- Research work on predicting the next bit output of an LFSR
- Worked on 40% of daily report generations.
- We trained the ML Model using the pattern duplication
- technique.
- We used DNN as the next bit predictor of the sequence
